Questions

1. Why are you interested in this offer?

- Express your enthusiasm for the opportunity to work with Nextbridge Pvt Ltd, a reputable company known for its expertise in technology and software development.
- Highlight your interest in the field of data science and the chance to learn and grow in a trainee role.
- Emphasize the importance of programming and Spark skills in the data science domain and your eagerness to further develop and apply these skills in a practical setting.
- Mention the appeal of being based in Lahore, Pakistan, and your readiness to contribute to the local tech community.

2. What exposure have you had to the technical tools and skills required for this job?

- Discuss your educational background, emphasizing your major in Computer Science, Data Science, Information Technology, Computer Engineering, or a related discipline.
- Highlight any coursework or projects where you have utilized programming languages like Python, R, or Java.
- Mention specific projects or assignments where you have worked with Spark for data processing, analysis, or machine learning tasks.
- If applicable, mention any internships, research experiences, or personal projects that involved applying programming and Spark skills in real-world scenarios.

3. Describe yourself as a team player.

- Emphasize your ability to collaborate effectively with others and contribute to a team's success.
- Highlight instances where you have worked collaboratively in group projects or team settings, showcasing your strong interpersonal and communication skills.
- Mention your willingness to listen to others, consider diverse perspectives, and actively participate in team discussions and decision-making processes.
- Share examples where you have taken on different roles within a team, demonstrating flexibility and adaptability to achieve common goals.
- Emphasize your reliability, professionalism, and dedication to maintaining a positive work environment and fostering teamwork.
